For Immediate Release

## Ventech Continues Commitment to Process Excellence

June 29, 2016 - Ventech has been appraised at level 3 of the CMMI Institute's Capability Maturity Model Integration (CMMI)® - Development and Services. The appraisal was performed by Quality Waves.

CMMI is a capability improvement framework that provides organizations with the essential elements of effective processes that ultimately improve their performance. An appraisal at maturity level 3 indicates the organization is performing at a "defined" level. At this level, processes are well characterized and understood, and are described in standards, procedures, tools, and methods. The organization's set of standard processes, which is the basis for maturity level 3, is established and improved over time.

Ventech is proud to continue the process improvement journey of promoting the highest quality of services to our clients. Since 2004 there have been three CMMI SCAMPI A appraisals. Ventech was the first company in the world to demonstrate CMMI Level 5 for Development (v1.2) in 2006, followed by CMMI Level 3 (v1.3) in 2013 and 2016. The 2016 appraisal added CMMI Level 3 for Services— a milestone appraisal demonstrating our continued commitment to process excellence.

---

*"I am honored to lead a fantastic team of high achievers who worked very hard to earn the success and recognition that the CMMI Level 3 DEV and SVC appraisals bring to Ventech. I am very fortunate to work in a company that places a high value on quality and customer satisfaction as main objectives. Of course, we cannot stop to rest – we must push on to greater heights in improving our processes as well as seeking higher levels of excellence in delivery!" - Dale Caffall, Chief Delivery Officer*

### About CMMI® Institute

CMMI Institute is the global leader in the advancement of best practices in people, process, and technology. The Institute provides the tools and support for organizations to benchmark their capabilities and build maturity by comparing their operations to best practices and identifying performance gaps. For over 25 years, thousands of high-performing organizations in a variety of industries, including aerospace, finance, health services, software, defense, transportation, and telecommunications, have earned a CMMI maturity level rating and proved they are capable business partners and suppliers.
